

# Tool Talk Safety Meeting

April 19, 2021

## ***Poly Specials & SCB Removal Crew Safety Review***

### **CREW SPECIFIC SAFETY REVIEW**

Each crew member is to have a copy of the PK Safety & Health Hand book for today's Tool Talk discussion. This Tool Talk is a review of the general safety standards and a focus on specific provisions for Poly Specials & SCB Removal Crews and to familiarize crew members about the project, roles and responsibilities. Identify tasks, evaluate risks, and address any questions. The PK Safety & Health Handbook is found on the PK Employee Homepage and printed copies are available at each division.

- **2.07 Hearing Protection & Conservation**  
Prolonged exposure to loud noise can result in permanent hearing loss
- **3.10 High Pressure Blowing**  
When using compressed air for blowing the operator shall wear safety glasses and hearing protection and be careful not to blow into traffic.
- **NO SHORTCUTS when setting up lane closures**  
Take the time to set-up lane closures properly with cone tapers and tangents.

### **COVID-19 PREPAREDNESS**

The PK COVID-19 preparedness & Response plan is available at any PK division or accessed from the PK Website Employee Home Page

Remember:

- Wash your hands often
- Practice social distancing by keeping 6 feet between you and others
- Wear a mask when you are not able to keep 6 feet from others
  - If you need a mask see Chris Reo

### **HAZARD COMMUNICATION**

- **4.2 Material Safety Data Sheets (SDS)**

All employees are required to have the link to the PK SDS stored on their personal device for SDS access in an emergency. Save the following link as a favorite or your home screen for quick access:

**Scan to access an  
MSDS**

## ***Poly Specials & SCB Removal Crew Safety Review***

Page—2

- **Safety Checklist** on pages 20— 21 and Daily Vehicle Inspection Checklist on page 22 is available for use with daily pre and post trip inspections.
- **Listening Devices and Speakers**— Earbuds, headphones or other listening devices are prohibited while on the job.

### **FOREMAN WORK REPORTS**

Foreman's reports need to be completely filled out with more than just quantities and time. Fuel usage must be reported for every vehicle everyday along with any hotel or other expenses. Information provided on the daily reports is also used to track and find the cause of incidents and eliminate a recurrence.

Questions about this Tool Talk Topics or other safety items? Nate Blumerich at 248-978-9621 or Kurt Shea at 269-207-2055
